DELUXE

Dual Pump Flood Control System

TWO PUMPS, ONE ALTERNATOR, PLUS A BACK-UP EQUALS COMPLETE REDUNDANCY!

Now Featuring
The

**ion**TM

Solid State Non
Mechanical Digital
Level Control
Switch

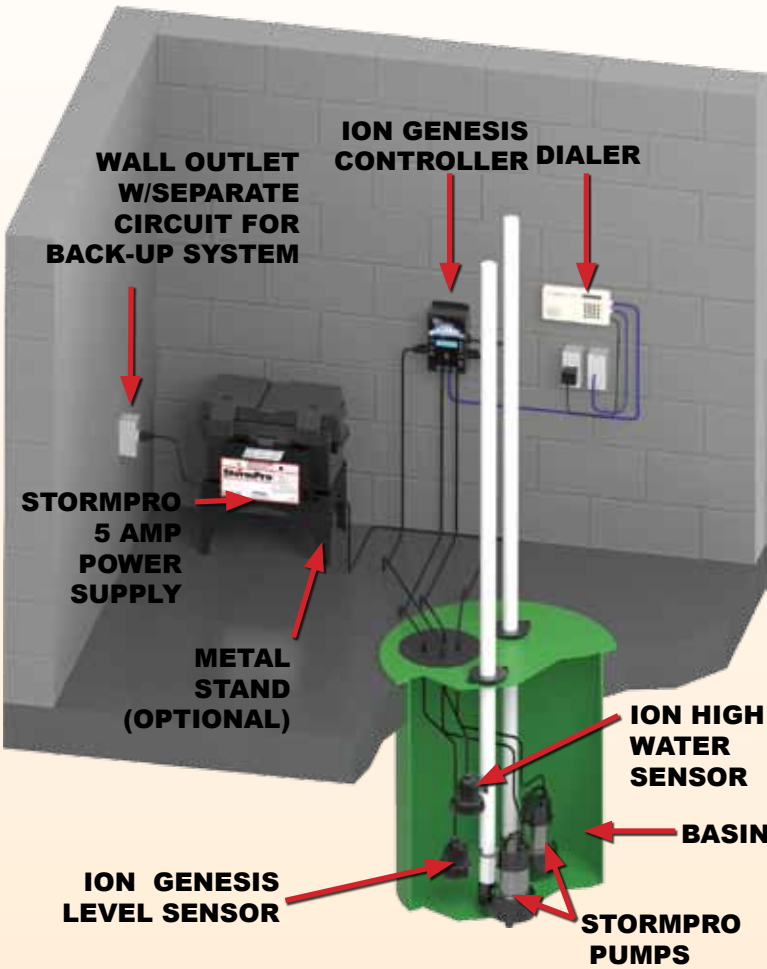

- ⚡ **Back-up Unit Runs on Either AC or DC Power**
- ⚡ **Works as both a primary and battery back-up system**
- ⚡ **Comes Complete with Two Heavy Duty 1/3 HP, 115 V, StormPro Sump Pumps**
- ⚡ **Genesis Controller monitors all pump activity, including pump running current, pump trending and much more.**
- ⚡ **Built-in alarm and LCD display alerts of potential failures before they occur, optional dialer will call up to nine phone numbers**
- ⚡ **Uses Maintenance Free AGM Batteries**
- ⚡ **UL/CSA Listing Ensures Reliability**

**3000 GPH
@ 10FT**

Because Flooding Is Not An Option!TM

TYPICAL INSTALLATION

FEATURES & BENEFITS

- ⚡ The StormPro Deluxe Back-up system utilizes two reliable, heavy duty 1/3 HP, 115 VAC, sump pumps, unlike most systems that rely on one small plastic bilge-type DC pump.
- ⚡ The Ion Genesis is the most innovative pump controller ever made. By incorporating digital technology, it is constantly checking vital system functions. The Genesis has state of the art features that allow you to test the system with a touch of the button and an easy to read display that lets you know your system is ready for use.
- ⚡ Fully automatic, converts 12 V battery power into standard 120 V electricity to run the 1/3 HP StormPro sump pump when the power is out. Runs off of standard 115 V electricity when the power is on, avoiding unnecessary battery drain down.
- ⚡ The 1/3 HP StormPro sump pumps supplied with the system are extremely efficient, only drawing 4.5 amps, providing a longer run time while pumping more water than most 1/2 HP pumps.
- ⚡ Capable of using deep cycle maintenance free AGM batteries that perform better and last twice as long as the standard type.
- ⚡ Two indicator lights tell you the status of the system at all times.
- ⚡ Protective non-corrosive electronics enclosure and battery case.
- ⚡ Made in the USA.

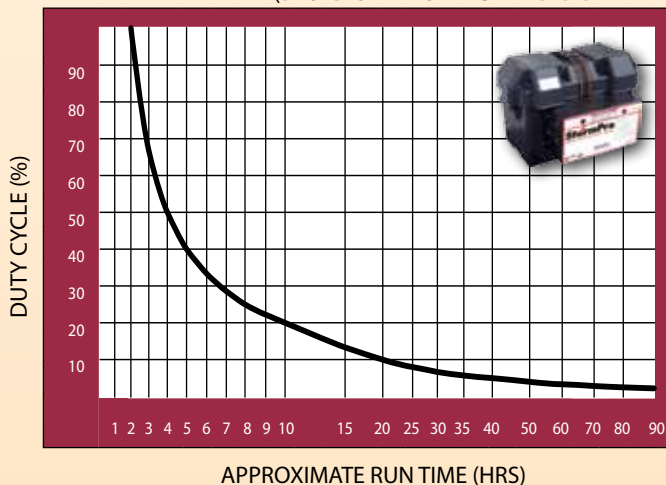

Power+ Battery

For optimal performance, install Metropolitan Industries' maintenance-free AGM **Power+** Batteries (not included).
